The Russian Law must be withdrawn unconditionally

We, Georgian non-governmental organizations, once again declare that the draft law

adopted by the authorities in the second reading is a Russian Law in its goals and content, it is directed against the Western course supported by the Georgian people, and it must be withdrawn unconditionally. No amount of amendment can reverse the devastating effects that this law will have on our society.

Hear the voice of united and strong Georgian society. The government must withdraw this law unconditionally!

Yes to Europe!

No to the Russian law!
